

About Living & Learning

The US Living & Learning department, part of the US Jewish Living Education Division, provides publications, heritage trips and educational and social resources for our communities as well as helping them to share best practice. Many of the US publications and programmes on this website and which you will find in US communities have been produced by US Living and Learning directly or with its assistance.

For more information please contact Joanna Rose via landl@theus.org.uk [1] or 020 8343 8989.
