

## Heritage Tours

Heritage Tours and Trips exploring our Jewish roots have become a large part of the modern day Jewish experience. Discovering the essence of European Jewish Life and tracing the tragic history of the holocaust enables us to learn about the Jewish world of past and shape a positive future.

The Community Services Division and Tribe in partnership with Living and Learning have been at the forefront of organising inspirational and memorable programmes in various European destinations for our communities and members, as well as bespoke trips to Israel.

In the last few years, United Synagogue communities have been on packed and powerful trips to Poland, Prague, Israel, Berlin and Amsterdam. They have centred on 'remembering the past to build the future' and have focused on understanding the highs and lows of the Jewish history in each location.
