

## Why Join The US

The United Synagogue is the largest Orthodox Synagogal movement in Europe, made up of over 60 communities, mostly in London.

The US, along with your local US community, is here to provide you with everything you need to live a vibrant Jewish life, helping you through both happy and sad times.

Our communities are led by fantastic Rabbinic teams supported by a range of staff and hundreds of dedicated volunteers giving up their time to ensure success in their local community.

Our communities have a wide variety of opportunities available for members to get involved with, whether social, educational, cultural, religious, welfare, volunteering and more; there is something for everyone.

Each of our communities have their own unique qualities. To find out more about a specific community, please [click here](#) [1], or if you are looking to move and want advice on which community is best for you, please just [email us](#) [2].

We look forward to welcoming you to the United Synagogue family.
